SPECIFICATIONS

Our PGD S LW line offers premium, ultra-low-weight multi-curved plates designed for use in conjunction with NIJ IIIA soft armor

The plate is made with high-end polyethylene and is manufactured under extreme pressure.

The plate is very drop resistant and it's covered with a liquid-repellent Cordura cover, which protects the ballistic properties against water, oil and similar liquids.

At only 13 mm thick, it provides superior protection in an incredibly slim profile.

7-year ballistic warranty.

BALLISTIC TESTING

- NIJ 0101.06 (tested)
